

I should have an operation to stop me producing unwanted kittens.

I need to be taken to a vet every year for injections and whenever I am unwell.

Sometimes I might need to be treated for fleas.

I need to be treated for worms regularly.

I need to be trained to use a litter tray when I'm a kitten.

I need a home with a garden away from busy roads.

I need to be looked after when you go on holiday.

I need you to make sure there are no bones in my food.

If you decide to have a cat, find out as much as you can about it from books or by contacting the SPCA.

Having a cat can be fun, but it needs a lot of looking after. If you want to own a cat, think very carefully. Can you be sure you will always have the time and interest to give to your pet?

Always talk about having a pet with the rest of your family. If you are really not sure about it, then don't get a cat.
