

ANNUAL REVIEW 2019

L-R: Datin Dr Norely Hj. Abd Rahman, DYMM Tengku Permaisuri Selangor Tengku Permaisuri Norashikin, Christine Chin

SOCIETY FOR THE PREVENTION OF CRUELTY
TO ANIMALS (SPCA) SELANGOR
AN INTEGRATED ANIMAL WELFARE ORGANISATION

Patron's Message

2019 has been an interesting year, quiet yet challenging as SPCA Selangor continues her struggles in managing animal welfare matters amidst the deteriorating financials due to the slowing down of donations. Despite the financial downturn in donations from the corporates, the team in SPCA Selangor still prods on with the rescues, the unwarranted surrenders and looking into abuse cases of the animals, working closely with the Department of Veterinary Services.

Even with the Animal Welfare Act 2015 already in force, cruelty against animals still persist and we strongly believe that increased enforcement by the authorities is needed to curb cruelty against animals. I share the same vision with SPCA Selangor in that the introduction of educational programmes and workshops on the Animal Welfare Act 2015 would be an effective way to share knowledge to the younger generation as well as the public at large. SPCA Selangor will continue to promote and prevent cruelty through her education programmes and hopes that doors will open for SPCA Selangor to

reach out to corporates to take an active role in the CSR programmes to promote kindness to animals.

With the recent news in the social media on the catching of strays as well as the conditions of local council pounds and the sad state of conditions that the strays are being exposed to, I trust the authorities will take positive steps to improve the environmental conditions as well as to treat strays more humanely.

I would like to appeal to the public to have a big heart to support SPCA Selangor in her work in animal welfare and also wish to take this opportunity to thank all the donors for their kind contributions and support.

"Kindness is a gift that everyone can afford to give" - Unknown

Tan Sri Lee Lam Thy
Patron, SPCA Selangor

Chairman's Message

Christine Chin
Chairman, SPCA Selangor

70 billion animals are killed for food every year! Land and food resources used to produce meat are disproportionate to the final protein content and livestock is a major contributor of carbon emissions, amounting to about 14% of all carbon emissions.

Farm animal welfare has long been a concern of mine. While companion animals are visible and play a very important part of our lives, 99% of animals killed (70 billion) are killed for our desire for meat. Imagine the horror and immense institutionalised cruelty than happen behind closed doors, the doors that if we peak through will haunt us forever.

Therefore, I'm happy that with a grant

from OpenWing Alliance, an initiative of The Humane League, we are able to set up a Farm Animal Welfare department, headed by the very capable Ms Wong Ee Lynn. Our first initiative is to focus on humane poultry welfare and the benefits of a plant-based diet.

Humane stray animal control continue with discussions with Municipal Councils and YB Ng Sze Han, Selangor Exco Member and Head of PBTs in Selangor. SPCA Selangor will assist in developing Humane strategies and Proper Pound management in all Selangor pounds. Creating Compassionate Communities, one of SFS goals, will feature strongly in managing spayed/neutered community animals.

Thank you for joining us along this road less travelled.

God Bless and a very Happy 2020 to all!

EDUCATION, REHABILITATION & ADOPTION

E.R.A. CENTRE

Year 2019 saw a **further reduction in the number of surrenders** — and 385 kittens, puppies, cats and dogs adopted into loving homes.

FOOD & FUNDS

The **E.R.A. Centre** uses a mix of commercial dry pellets, canned soft foods and cooked meat and rice for our dogs and cats. Food donations continue to come in, both for Centre use and for our **Food Bank** that provides pet food rations to community feeders and rescuers. Find out how you can donate to our Food Bank at bit.ly/SPCASelangorFoodBank

Funds obtained via the Centre come from **walk-in donations, sale of merchandise, Charity Shop sales, and boarding services**. If you would

like to make a donation to support our work, you can donate securely online at bit.ly/SPCASelangorDonate

SERVICES

SPCA Selangor receives requests for help daily via e-mail, calls, and social media -- many asking us to accomodate **unwanted pets and strays**. It is

unrealistic to expect SPCA to accept all these excess animals because of limited resources, but we try our best to accomodate requests when space is available.

We strive to stay connected with **issues and concerns of the Malaysian public**, and hope that 2020 will bring about **positive changes for animal welfare in Malaysia**.

2019 Statistics

The Passing of Mrs. Mea Wheatley

Mrs Wheatley was our Board Member for 58 years and Chairman for 16 years, retiring in 2004 as Chairman. She was a strong advocate for animal welfare, and had been an inspiring icon in Malaysian Animal Welfare - positioning SPCA Selangor as a credible and strong advocate for kindness and compassion towards animals. We will miss her dearly.

VOLUNTEERING & INTERNSHIPS

We welcome volunteers all year round - duties including socializing the animals, cleaning of the kennels and cattery, helping at events, photography and more.

We are always recruiting volunteers who willingly spare their time and can lend a hand at our E.R.A. Centre. There are numerous hands-on activities to get involved in, as well as safety and operational procedures that all volunteers need to know in order to understand how our shelter works and to become an ambassador of SPCA Selangor.

With that in mind, we induct all new volunteers through our Pet Care

Programme (PCP), a one-time training workshop that everyone will need to participate in before becoming an official SPCA volunteer.

Email volunteer@spca.org.my for registration or more information!

Our internship programme is structured in such a way that interns can gain experience and exposure to various areas of our work - including working hands-on with the animals, helping out at the reception desk or working with the MARCOMM team for events and fundraising. We welcome interns who are keen on interning for 2 months or more with our organisation.

Looking for an internship placement? Please drop us a line at enquiries@spca.org.my!

SPAY-NEUTER PROGRAMME

We have been running our **low-cost, high-volume spay-neuter programme** at the E.R.A Centre – providing subsidized spay-neuter services for companion animals belonging to people from the lower income category, for animal rescuers and people caring for strays in their communities. Neutering is a proactive measure that stops the overpopulation crisis at source – unlike other short-term solutions such as dog-catching and euthanasia which are ineffective, expensive and short-sighted. Thousands of stray animals and unwanted litters

face euthanasia or are suffering on the streets, neutering directly addresses this overpopulation crisis. Starting from 2 cats, you can end up with as many as 20,000 kittens and cats in a matter of 7 years!

Our neutering program is outsourced to Star Pets and PawsDoc, and we continue to assist rescuers and small Shelters operators through offering an affordable rescue adoption package (neutering, vaccination, parasite control, minor treatment, education) or neutering. Since 2003, we have neutered upwards of 55,000 cats and dogs in the Klang Valley and beyond!

We are pleased to say that the Department of Veterinary Services (DVS) shares our vision of a Stray Free Malaysia, which we can achieve through more effective legislation, active neutering of pets and strays, differential licensing and public education!

Need to get your pets or community animals neutered?

Find out more about our Spay-Neuter Programme at bit.ly/SPCASelangorSpayNeuter

Kennel Manager Nancy Lee at the Adventure Park

KENNELS

2019 saw a significant decrease in the number of surrendered canines, and our focus shifted to rehabilitation and emergency response.

Out of more than **255 dogs** and puppies taken in at SPCA Selangor this year, we are happy to have found loving and caring homes for almost 134 of our furry friends - and we are working hard to rehome those who remain!

This year our focus was on rehabilitation and emergency response. Many animals came in abused, injured and abandoned. These sick, scared and nervous animals have been transformed into healthy happy pets by our dedicated Kennel team, headed by Kennel Manager and Committee Member Ms Nancy Lee.

Adoption has been a struggle, but we practise NO-KILL and all healthy animals will remain until they find loving

homes. Post adoption communication is encouraged to ensure a smooth and transition into their new homes.

The Kennel Team work hard to ensure hygiene in all kennels and ensuring our furry residents are well-fed and well-loved!

CATTERY

Our Cattery has had a busy year — with the team updating policies and guides, leading a cat cage enrichment project, and engaging the media!

In 2019, 46 kittens/cats were fostered by kind and responsible fosterers — and almost all of them have since found loving homes. We are so happy that many of the fosterers offered to continue fostering with us in the future! We struggle with the number of surrendered and dumped kittens, so we are very grateful to our fosterers who open up their hearts and homes to ease our burdens and help us to save more lives.

This year, we have mentioned our cats in quarantine frequently to create more awareness and educate the public

about dumping, the importance of gently surrendering, the needs of a new-born kitten and fostering. We hope that by sharing these short posts, people can personally relate to these cats/ kittens:

The Paw Park is a built-up enclosure for Cattery Cats to roam during special cat events. It is most commonly used for petting sessions or bonding time with the cats. This new enclosure has allowed more space for our furry friends to run and play making it less stressful for them in a new environment and encourages more happy times with humans.

HAPPY TAILS

Here are some first-hand accounts of how beautiful and exciting it is to share your life with an animal who just wants a second chance!

Before

After

QUEENIE

Queenie adopted from SPCA 6 years ago. Her owners abandoned her, leaving her tied to SPCA's fence because they no longer wanted to care for her. This sweet, gentle senior dog had severe mange. It was a case of irresponsible pet ownership. We treated her mange, and she recovered beautifully. She regained her health, and she was adopted soon after by Mr Dan. We are so happy that she is so loved and well cared for by her wonderful new family!

JODIE

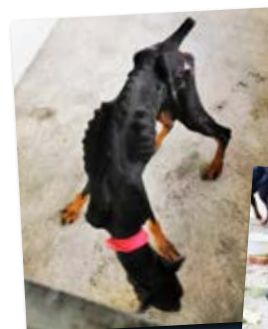

Bitten by a pack of dogs, a little pup was hiding in a bush when a passerby heard the whining & crying. The rescued pup was sent to SPCA. Pup was wounded badly in the front leg. She was not able to walk for weeks! Little by little, Jodie managed to stand up & staggered around. She was lucky that there was no major issue with her bones. Quietly enjoying the attention given to her, Jodie recovered slowly and overcome all the pain and trauma she encountered. Jodie has grown close to another pup, Sunshine, who is full of charisma & life. Both are inseparable! Hopefully, they are able to find a forever home where they can be together.

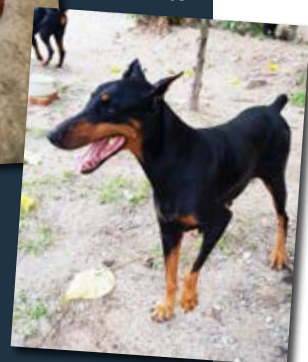

Before

After

Before

After

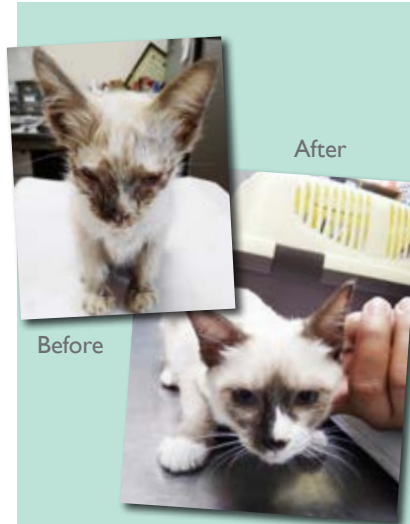

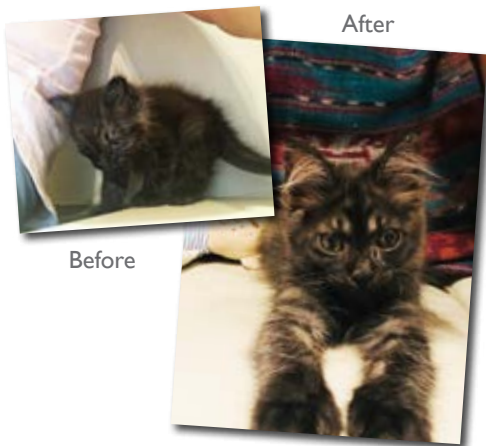

DEBRA

Debra the old Doberman was left outside a school in Selayang to fend for herself. Her irresponsible owner had abandoned her probably because of her poor health. She had tick fever and heartworms, and was skin and bones when we rescued her. Thanks to the generosity of our donors who contributed towards her medical expenses, we treated her and she recovered well within months. Her story has a happy ending -- she was adopted by a loving family who will love and care for her for the rest of her life!

BLACK JEWEL @ BUTTON

I found a little grey kitten outside the gym, motionless. I rushed him to the SPCA, and the SPCA vet cleaned him up right away and diagnosed an infection for which they gave him an injection and some medicine to administer at home. I offered to foster him until he gained strength and recovered, which he did very quickly once he started eating and drinking again. His energy improved over the next few days and it became clear that he would survive and was a fun ball of fluff! Then, a friend who so kindly adopted him first discovered one of her sons had cat allergies as well, so he arrived back at the SPCA ready for someone to love him. With his cute appearance and happy demeanor, Black Jewel, now named Button is living comfortably in a new loving home. He has a new bestie too, named Mishka!

Lisa Phinney

FOSTERED: CHERRY BLOSSOM

Her first appearance wasn't so pleasant but somehow I knew she was going to be a pretty girl, hence the name Cherry Blossom. She was sick with a flu, with an eye infection and fungus on parts of her body. After many weeks of treatment, I finally saw her condition improve and her personality bloom. She is so beautiful, and she can get along with any person or kitten. Later on, a child fell in love with her and the lovely family adopted her!

Ruby

FOSTERED: LILY

We first met 3-month-old Lily when she was homeless, waiting outside the canteen at the school we work at. We volunteer at the SPCA most weekends, so we asked the staff there for advice on how to find a home for Lily. We agreed to foster Lily until the SPCA could find a place for her. Looking back, I think deep down we had already fallen in love with this little purring ball of fluff, but as we already shared our home with Chocapic, our free roaming pet rabbit, we were unsure about bringing a cat into our lives. However, as we all got to know each other, we came to the decision to welcome Lily into our home for good and officially adopt her. We are glad that Lily is now safe, happy and loved. We also managed to find homes for her mum, and her younger brothers and sisters we rescued at the same time we found Lily!

Jon & Sabine

STRAY FREE SELANGOR

THE HUMANE & COMPASSIONATE WAY

The stray animals of Selangor are blessed with the support and participation of our beloved **DYMM Tengku**

Permaisuri Selangor Tengku Permaisuri Norashikin, who has kindly consented to be the **Royal Patron** for **Stray Free Selangor (SFS) – The Humane And Compassionate Way**. Selangor will be the first state in Malaysia to work towards an effective yet compassionate stray control programme.

VISION

SFS has a vision of a home/habitat for every soul, focusing on **Humane Education, High Volume Spay/**

Neuter, and Government Lobbying for humane, effective and sustainable ways to curb stray populations.

The current preferred stray control method of **Catch-And-Kill** practiced by all Municipal Councils in Malaysia in an effort to reduce strays has proven to be **highly ineffective, inhumane, unethical and expensive**. In its place, the action plan of SFS comprises:

Humane Education

Responsible Pet Ownership (RPO) programmes are being offered in schools, universities and residential communities.

High Volume Spay/Neuter

SPCA seeks to collaborate with Municipal

Councils, the Department of Veterinary Services, private vets, rescuers and NGOs to achieve high/spay neuter rates in communities and promote better animal welfare standards.

Government Lobbying

SPCA lobbies the government for the welfare of community animals, habitats for spayed/neutered non-aggressive stray dogs and spayed/neutered cat colonies, mandatory spay/neuter and mandatory RPO seminars for dog owners.

NEUTERING SUBSIDY

An SFS fund has been created to

provide subsidised spay/neuter for rescuers and the low-income group to assist in spaying and neutering their pet animals. All applications for the neutering subsidy must be done via SPCA Selangor, and the voucher issued will be accepted at panel vets for a **50% discount for dog neutering** and an **80% discount for cat neutering**.

COMPASSIONATE COMMUNITIES

We are also working to create **Caring and Compassionate Communities (CCC)** where spayed/neutered strays/community animals can live their life free from misery and

capture. The CCC will be guided by SPCA guidelines in communities that are interested to embrace the Caring and Compassionate concept. Feeders will be educated on caring for community animals responsibly. We are delighted that **DYMM Tengku Permaisuri Selangor Tengku Permaisuri Norashikin** has founded **Casa De Cat**, a shelter for rescued stray felines in Shah Alam -- a wonderful initiative to encourage compassionate communities!

More information available at bit.ly/StrayFreeSelangor, or email us strayfreeselangor@spca.org.my!

EDUCATION

Our Education program promotes animal welfare education, awareness and activities to enable participants to be better acquainted with animal welfare issues.

Education officers Arief and Erica visiting schools for educational activities

SPCA's Education programme promotes animal welfare education -- creating awareness and organising activities to enable participants to be acquainted with local and international animal welfare issues. We believe that how a person perceives and treats animals reflect who they turn out to be within their wider community, as well as forge a better future for the treatment of animals.

VISITS TO SPCA

We welcome individuals and groups all year round to our SPCA Selangor

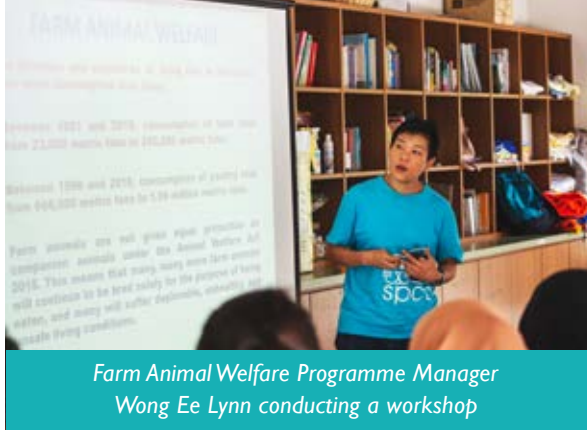

E.R.A. Centre. A visit enables students and volunteers to experience caring for the centre animals, sowing the seeds of compassion and volunteerism in them. Many schools, universities and corporations also visit SPCA Selangor as part of their community service programs. Anyone who is interested in volunteering at our centre are required to attend our Pet Care Programme (PCP) to equip themselves with the basic skills and knowledge needed to care for our animals and help out at the shelter. The SPCA staff also assist students on their assignments and projects related to the organisation or animal welfare in general.

Shah Alam Buddhist Dharma Class

We have had the pleasure of being visited by the Shah Alam Buddhist Dharma Class on a yearly basis. This year, approximately 60 students graced our centre to learn about basic pet care with some help from our animals. The 5-16 year olds got plenty of interaction time with both dogs and cats, gaining an understanding of the animals and their behaviors.

ACMC

When approximately 70 children from Ampang Methodist Church Kindergarten attended our in-house workshop, the children received first-hand experience on proper handling and

*Farm Animal Welfare Programme Manager
Wong Ee Lynn conducting a workshop*

Education officer Erica hosting a school visit to SPCA

behavior around animals, as well as the enrichment activities we can provide for them as responsible carers.

REACHING OUT

SPCA Selangor is frequently invited to conduct educational workshops in kindergartens, schools, colleges and offices every year. Our officers conduct these workshops which encompass animal welfare related topics such as Responsible Pet Care and Ownership.

Educational Workshop @ R.E.A.L. Schools Cheras Campus

In order to create a kind and compassionate future for the treatment of animals, we believe a key factor to achieving this goal is through educating the upcoming generation. With an increasing interest in pet ownership as well as stray animals, promoting a caring and responsible attitude towards animals is one of the most effective paths for meaningful change. We happily accepted an invitation to give a talk to approximately 80 secondary students at R.E.A.L. Schools Cheras Campus (some of the students have also previously attended

our in-house workshop which allowed for animal interaction at our centre). The workshop was an interactive educational presentation with the help of our lovely demonstration dog, Marilyn. Students were taught basic care and handling skills which they could practise on Marilyn!

FARM ANIMAL WELFARE

In October 2019, SPCA Selangor organised and hosted a workshop on Certified Humane's laying hen welfare standards for farmers and animal feed producers and received positive responses from the workshop participants. We look forward to conducting more such workshops in the coming year and to working with more producers to create better living conditions for farm animals in Malaysia and the region.

Poor farm animal welfare standards not only cause untold suffering to millions of animals, but also put food safety and human health at risk. Until plant-based or lab-grown alternatives to animal products are more affordable and available, we have a moral duty to ensure that farm animals

2019 Statistics

1,830

Participants in SPCA Educational Activities

1,081

Participants in SPCA Animal Welfare awareness talks

are treated humanely. Whether you are a vegetarian, vegan, or omnivore, we can all agree on one thing: that farm animals deserve higher standards of welfare and care. If we eat them or profit from them, we owe them a better life.

Contact education@spca.org.my for more information on our programmes!

INSPECTORATE

Our Animal Inspector responds to reports from concerned members of the public of **mistreated or neglected animals** in and around the Klang Valley. From January to December 2019, we had received and checked on more than **590 reports** - the increasing number and the nature of the complaints received reflect **increasing public awareness and concern for animal welfare**. This year, we have forwarded the majority of cases to the **Department of Veterinary Services (DVS)** for their attention and action. We have refocused our resource on emergency rescues of strays (and occasionally pets) and rehabilitation of these rescued animals.

MOVING FORWARD

Going into 2020, we have very specific plans to improve our Inspectorate department through closer cooperation with individual rescuers, NGOs and the authorities. We are also hoping to collaborate with volunteers (intake: rescuing and outflow: rehoming/ relocating) to improve the efficiency of the department.

LOBBYING

Chairman Christine Chin with Mr Koh, his lawyers and animal rescuers.

The Animal Welfare Act 2015 is a comprehensive game changer in Malaysia and will oversee sweeping changes in how animals are treated in Malaysia.

Our Chairman, Christine Chin, is on the **National Animal Welfare Board** that meets quarterly to discuss AWA matters and work towards solving current and long standing animal welfare issues that plague our country. She has been an active advocate for better animal welfare in Malaysia for decades and is very happy that her participation in the National Animal Welfare Board gives SPCA a bigger and better voice for the animals.

SPCA Selangor set up a **Farm Animal Welfare** unit in June 2019 with the

objective of engaging with governmental authorities, farmers, producers, corporate buyers, and the public to improve the welfare of farm animals in Malaysia.

From June 2019 – November 2019, SPCA Selangor's Farm Animal Welfare unit played a role in the following victories for farm animal welfare in Malaysia:

21 August 2019: Subway Restaurants issued a written commitment to source only cage-free eggs for its Malaysia operations by the end of 2025.

29 Aug 2019: Tesco HQ made a public written commitment to transition fully to selling only cage-free eggs in Malaysia and Thailand by 2028.

SPCA Selangor's farm animal welfare

work is made possible thanks to the Open Philanthropy Project, and we are a member organisation of the Open Wing Alliance.

The SPCA Chairman met **YB Ng Sze Han** after the **MPSJ dog catching debacle** that infuriated dog lovers. A viral video showed MPSJ dog catchers getting offensive with a dog sympathiser Mr Koh who tried to prevent them from catching community dog Bruno in an inhumane way. SPCA offered to consult with municipal councils in stray pound design and humane management of strays. SPCA representatives also attended the court proceedings for this case, in which he is defended by lawyers Rajesh Nagarajan and Sachpreetraj Singh.

Thank you to all the kind individuals, schools, companies and organisations who have helped us raise much-needed funds so we can continue to carry out our operations, services and activities!

INDIVIDUALS

We would also like to thank all the individuals who had donated cash or wishlist items collected during their birthdays to us, as well as proceeds from sales of items like baked goods, art & craft and more!

CAMPAIGNS & ACTIVITIES

FOSTERING

Fostering gives animals that need extra care a **higher chance to survive**, and in general all animals a higher chance to find a forever home. In SPCA Selangor, we receive very young, ill and non-social animals from time to time. These animals need a lot of care before they are healthy and safe to be adopted -- usually between 2 weeks to 2 months. We are very grateful to have an active group of reliable and caring fosterers, who go out of their way to nurture and rehabilitate **young, sick, injured and timid animals** who arrive at our doorstep. Here's to growing this network further in 2020!

PUPPY & BIRTHDAY 'PAWTIES'

Every 3rd Saturday of the month, SPCA organizes a **Puppy Pawty** for the public. Originally created for children, the party is open to people of all ages who wishes to indulge in some playtime with our puppies. Highlights include puppy care and handling demonstrations, dog bite prevention, basic obedience demonstrations, as well as a tour of our SPCA Selangor centre. It is an easy way of being exposed to the animals and a **fun educational experience!** We also have had private functions where children can choose to host their birthday party (or **Birthday Pawty!**) here at our centre.

Family and friends gathered together for some food and puppy time to celebrate the annual occasion - and had a rolling good time while making precious memories! SPCA welcomes bookings for the Puppy Pawty all-year round, do drop us a line at events@spca.org.my to book a space!

FOOD BANK

Our **food bank** at the SPCA Selangor is where we store all pet food items and other goods donated to us by members of the public throughout the year. All items are put to good use to help us feed and care for our **in-house animals**, as well as some others that

are regularly dispersed to independent animal **rescuers** and community animal **feeders** that seek our aid to continue the good work that they do. We would like to thank all those good Samaritans that have assisted us in this endeavour.

ANTI-CAT AND DOG EATING PETITION

In June 2017, in light of media reports that the **demand for cat/dog meat was increasing** and becoming a lucrative business for unscrupulous individuals, we started an **online petition** to urge the **Malaysian authorities and the Department of Veterinary Services (DVS)** to take action and enact a law

against the eating of cats and dogs. The petition has more than **139,019 signatures** to date - we will submit it to the government once we reach our target of **150,000 signatures!**

Sign here: <http://bit.ly/2BohKf0>

OUTREACH EVENTS

Our team is **always on the move** -- setting up merchandise and adoption booths as well as conducting educational activities at events. We are always looking forward to new **opportunities to collaborate** with schools, universities, companies and event organisers to get our message out there!

Follow us on [facebook.com/SPCASelangor](https://www.facebook.com/SPCASelangor) for updates on our activities!

EVENTS

Animal welfare can be fun, too! SPCA Selangor organised fun and educational events in 2019 to promote kindness towards animals.

SYMPHONIA FANTASIA

Symphonia Fantasia held a “A Concert for Kindness” on the 17th November 2019 at The Gardens Theatre with the aim to raise funds for SPCA Selangor’s welfare work. The concert was attended by the guest of honour, Tun Dr. Siti Hamsah who also played 2 musical pieces during the concert. A total of RM 26,000 was raised through this concert! Our heartfelt thanks to Ms. Winnie Cheah and those who took part in this concert!

DOGATHON 2019

We are proud to be invited to be the supporter for one of the biggest event held by students from the Faculty of Veterinary Medicine, Universiti Putra Malaysia, Dogathon! Our dogs enjoyed their time there by participating in the event’s main highlight, the 1.5km Dog Race and also being pampered by the public!

We would like to thank the organising committee of Dogathon 2019 for the invite and also Abhi and her Students from Asia Pacific University for lending us a hand during the event!

PET WORLD MALAYSIA 2019

Our heartfelt thanks to Fairs & Events Management Sdn Bhd for inviting us to participate in Pet World Malaysia 2019, Malaysia’s Largest Pet Exhibition at Mid Valley Exhibition Centre. A cheque handover ceremony was also held by Vitakraft at our booth during the event. Thank you Fairs & Events Management for inviting us to participate in their event and also Vitakraft for donating to us to fund our animal welfare work.

EKSPLO KUCING

A very big thank you to Murni Ekspo for inviting us to participate in this year's Ekspo Kucing 2019!

Ekspo Kucing was also the first time where we set up very own mobile enclosure, PawPark! Public were given the chance to make friends with our cats through the kitty-therapy session! Few of our cats were also adopted by the public after the interaction! We would also like to thank Pet World Marketing for sponsoring the cost to build PawPark and also EPIC Communities for designing and building our very own PawPark.

WORLD ANIMAL DAY

SPCA Selangor observed World Animal Day in our shelter premises on Saturday, 28 September 2019. The World Animal Day celebrations this year were unusual in that the focus shifted from companion animal welfare issues to include wildlife, environmental, and farm animal welfare issues. Among the organisations and special interest groups in attendance were the Gibbon Protection Society of Malaysia (GPSM), Malaysian Nature Society (MNS) Selangor's Herpetofauna Group, MNS

Selangor's Bird Group, MNS Selangor's Green Living Group, and MNS Selangor's Marine Group. The groups screened videos, conducted games and quizzes, and educated the public on wildlife, environmental, and animal protection issues. SPCA Selangor Chairman Ms. Christine Chin-Radford delivered a presentation entitled "The Fountain of Youth lies in a plant-based healthy diet", while Farm Animal Welfare Programme Manager Wong Ee Lynn delivered a presentation on "Why Farm Animal Welfare?" and "Transitioning to a Plant-Based Ethic".

Donate

to SPCA Selangor to help us
continue our good work
for the animals.
